

<u>ΦΦΔευτέρα, 16 Οκτωμβρίου στις 18:30μμ -</u> ★ Πολιτιστικόςχώρος »Δημήτρης Χατζής» - Παλιά Σφαγεία

1ο Ζωντανό Εργαστήριο Συμμετοχικού Σχεδιασμού

Σας καλούμε να συμμετάσχετε τη **ΔΕΥΤΕΡΑ 16/10/2017** και ώρα **18:30** στο 1ο Ζωντανό Εργαστήριο Συμμετοχικού Σχεδιασμού στον Πολιτιστικό χώρο »Δημήτρης Χατζής» – Παλιά Σφαγεία.

Το εργαστήριο στοχεύει στη δημιουργία ομάδων εργασίας και ενός «ζωντανού» σχήματος ενεργών πολιτών, που θα ασχοληθεί με τις επιμέρους θεματικές ενότητες για τον ανασχεδιασμό του παραλιμνίου μετώπου, καταθέτοντας απόψεις, προτάσεις και ιδέες.

Οι θεματικές ενότητες είναι: - Κινητικότητα & Προσβασιμότητα - Χωροθέτηση Δράσεων - Περιβάλλον - Πολιτισμός - Οικονομία.

Η δράση πραγματοποιείται στο πλαίσιο του έργου «Resilient Europe» http://urbact.eu/resilient-europe του προγράμματος Εδαφικής Συνεργασίας URBACT III http://urbact.eu/.

1st LIVING LAB OF PARTICIPATIVE PLANNING ON 16 OCTOBER An action plan for the lakeside front

Can there be real participation in the wider city planning and decision-making around it? Can the people build a city that envisions a spirit of collectivity? The tools exist. Living Labs and Workshops for citizens are one of these tools and they are continuing the debate on the resilience of the city of loannina and, in particular, the urban lakeside front.

Living Labs, Workshops and the Digital Consultation Platform (http://www.diavouleusi.eu/) are the tools to empower citizens in planning and decision making for interventions and projects in the lakeside.

On **Monday, 16 October, at 18:30**, a further step is taking place, in order to activate as many citizens as possible in the process. In the cultural building of "Dimitris Hatzis", the old abattoirs, the 1st living lab workshop will take place. During this workshop, three thematic tables will be held:

- a) Sustainable Mobility Accessibility
- b) Redesign of the Lakeside Location and Placement of actions and
- c) Environment Culture Economy and the role of the lake.

With free access to the workshop, citizens will discuss with each other and with the Municipality in an effort to highlight the problems that exist and to assess the most important challenges. The concerns that will be raised will be posted on the consultation platform of the Municipality of Joannina. The process will be supported by the "Resilient Europe" project team of the

Municipality of Ioannina.

The 1st Living Lab is part of a series of workshops that will follow in the framework of the "Resilient Europe" program and build on the workshops that preceded it with wide participation.

The results of the public consultation will be taken into account in the design and preparation of the Masterplan for the redesign of the urban lakeside front, which is being drafted by the Municipality as part of the "urban resilience" project.
